9/6/2006

San Diego-based venture capital firm Enterprise Partners Venture Capital said that Patrick Harr has joined the firm as an entrepreneur-in-residence in its San Diego headquarters.

As an EIR, Harr will focus on deal sourcing and due diligence in the firm's technology sector. Harr joins fellow EIR John Leenane, who started last month and works from San Jose. Harr, who began yesterday, is not replacing anyone, Enterprise Partners Principal Moya Gollaher said.

Harr previously served as chief executive of Preventsys Inc., which makes security risk management and compliance reporting software. Preventsys, an Enterprise Partners portfolio company, was sold to McAfee Inc. this year. Prior to his tenure at Preventsys, Harr was a vice president of core enterprise products at enterprise storage networking company McDATA Corp.

Enterprise Partners was founded in 1985 and has over \$1.1 billion in capital under management. Enterprise Partners focuses on seed, early stage and promising later stage companies across a broad spectrum of technologies and the life sciences. The firm is currently investing from its sixth fund.
